Accelerate improvement - work smarter with joined-up data

GO 4 Schools is a powerful, joined-up, online system that supports whole-school improvement in a way no other system does. We make it easy to capture, analyse and share classroom data in real time, allowing your staff, students and parents to make better decisions – daily. It's the efficient, smart and agile way to work with school data.

You will then be asked for an e-mail address which needs to be entered in the 'First Time User' box. This e-mail address has to be the same e-mail you have given to the school as this is the security level which the organisation checks.

Once you have submitted your e-mail address you will be sent a password directly from Go4Schools to that address. When you have this password, re-enter your e-mail with this password in the User box.
